Keep Washington Out of Our Medical Decisions

CONGRESSMAN JIM GERLACH'S BILL RESTRICTS ACCESS TO CONTRACEPTION¹

For the past decade in Congress, Jim Gerlach has been a leader in the fight against a woman's right to choose.² This term, he's taken his crusade to a whole new level.

Congressman Jim Gerlach cosponsored legislation that would allow employers to deny employees coverage for contraception or any medical treatment the employer disapproves of.³

And he joined his party leadership in voting to slash funding for Planned Parenthood, the nation's leading provider of prenatal care, mammograms and cervical cancer screenings.⁴
